PROFILE

I am a Software Engineer with 1 year of experience as a Web Developer, seeking opportunities to apply and expand my skills in web programming and machine learning. My academic journey has provided me with a solid foundation in software development principles, along with hands-on experience in building dynamic web applications and developing intelligent machine learning models. I am proficient in tools such as HTML, CSS, JavaScript, React, Node.js, and various database management systems. I have a strong curiosity, adaptability, and the ability to quickly grasp new concepts.
